

Leadership Council

The Rise Up **Leadership Council** is committed to Rise Up's mission of advancing the health, education and equity for girls, youth, and women globally.

As a diverse group of professionals from across the U.S., Leadership Council members are advocates for gender equality for women and girls and Rise Up as an organization.

The Leadership Council serves as an active learning community for its members. At the same time, it acts as an advisor to Rise Up, providing strategic guidance to broaden relationships and fundraising with individuals, foundations, networks, and corporations.
