

Rise Up Launches in Rajasthan

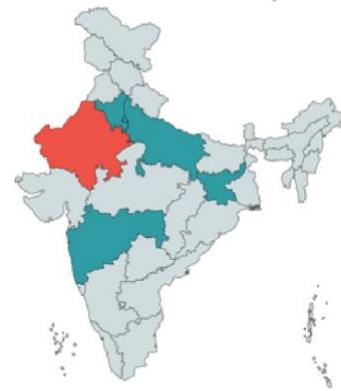

OVERVIEW

Rise Up, a non-profit dedicated to improving the lives of girls and women around the world, will select a cohort of visionary local leaders from Rajasthan to participate in our intensive Leadership Accelerator program. Rise Up is investing in leaders to strengthen their organizations, lead change in their communities, and advance national and local-level impact for girls and women.

With support from the Children's Investment Fund Foundation and Echidna Giving, Rise Up will train and invest in local civil society leaders to advance gender equity in Rajasthan, by improving education, health, and opportunity for girls and women.

Rise Up's new programming in Rajasthan builds on the success of our Gender Equity Initiative in Maharashtra and the National Capital Region in India. Selected local leaders will join Rise Up's powerful global network of more than 700 Leaders in 17 countries.

STRATEGIES

Rise Up enables leaders to expand their impact by providing the training, funding, and resources they need to achieve large-scale change at local and national levels, using the following core strategies:

Strengthen Leaders: Following a rigorous selection process, Rise Up Leaders will participate in a three-month virtual Leadership Accelerator. Throughout this intensive workshop, participants will strengthen their leadership skills and develop their own strategies to sustainably improve the lives of girls and women in their communities.

Invest in Local Solutions: Following the Leadership Accelerator, Rise Up Leaders can apply for competitive seed funding to launch their strategies to improve access to education, reduce child marriage and adolescent pregnancy, and increase women's and girls' leadership opportunities.

Build Movements: Rise Up will amplify the voices and visibility of leaders working to advance gender equity in person and online and enable them to engage with national and global decision makers to improve the lives of women and girls.

Call for Applications
